

New Mexico: Annual Federal Funding for Drinking Water Projects

SINCE EARMARKS RETURNED
Over the last two years, more than \$9.8 million has been cut from the New Mexico Drinking Water SRF to pay for earmarks.

Note: 2023 is an estimated allotment for state SRF projects based on the 2018-2022 allotment formula. A new allotment formula will be adopted for 2023-2026.

MYTH:
Funding for earmarks makes up for funding cuts to the SRFs.

FACT:
Since earmarks returned in 2021, total funding for drinking water projects in New Mexico (SRF funding plus earmarks) has been cut by more than \$5.5 million.

Note: The 2023 SRF allotment is an estimate based on the 2018-2022 allotment formula. A new allotment formula will be adopted for 2023-2026.
